Dear Mr. Brown:

Thank you for your letter of June 14, 1988, regarding the apparent lack of action on the part of the Department of National Health and Welfare when dealing with people disabled by pollution.

I have made representation on this matter to the Honourable Jake Epp and I have asked my colleague to ensure your concerns are thoroughly and immediately addressed. I am confident that Mr. Epp will give this matter due attention.

Thank you for writing and bringing this matter to my attention. It was a pleasure to be able to contribute my support.

Yours sincerely,

John C. Crosbie
